

# Fountain THERAPIES

**Sam & Mark Doyle created a 'One Stop Shop' which is a family independently run Award Winning Holistic & Wellness Centre in Handcross, West Sussex which is just up the road from Crawley Town FC Stadium.**

Fountain Therapies have been supporting Crawley Town FC and players over the years and as part of the Crawley Town Business

Club. We wish you all the very best in the matches to come in this very different Football season, and we thank you for your support in us.

At Fountain Therapies, we are very proud to have a talented mix of therapists who are highly skilled in treating Sporting Injuries, including Nick Buckfield, former Double Olympian and Commonwealth Games Record holder.

With over 40 Holistic and Wellness treatments available such as Sports Therapy, Acupuncture, Counselling, Hypnotherapy, Homeopathy and Osteopathy you can be assured of getting the best advice and treatments from leading experts in their fields.

We also have available state of the art equipment and tools. This allows us to help athletes of all skill sets and ages who are looking to return to training and competing in a shorter timeframe than it takes in usual pathways.

This means we can create a range of treatments that are tailor made, due to our holistic approach to a person's treatment plan. We find (for example) that Homeopathy is the missing piece of the 'jigsaw puzzle' in a person's path to healing.

A word about boosting immune systems & treating symptoms during times of great stress. It is of paramount importance to help prevent ailments occurring. Homeopathy and Nutrition are also a way of optimising your health in a safe effective way.

Fountain Therapies Clinical Director & Owner Samantha Doyle is a Registered Homeopath.
